

*one*PRO 9

S w i s s

P r e c i s i o n

I n s t r u m e n t

Surface treatment and manufacturing based on the space age technology. This new construction guarantees a long pistol life and satisfaction to our customers.

This new super compact system, consisting of a rotating barrel, very short slide and double recoil spring guide, allows the use of a barrel 3 inches long and a magazine with a capacity of 10 (USA) or 11 (regular) rounds. 16 round magazines are available upon request for law enforcement use.

Out-of-the-Box quality you can trust.

The onePRO 9 fits the hand naturally (18") and is perfectly balanced for instinctive shooting.

one engineered for professionals

Polygonal barrel blank
is supplied by the
well-known German
Company Lothar Walther.
It will be machined
as all other parts in
Zurich-Oerlikon.

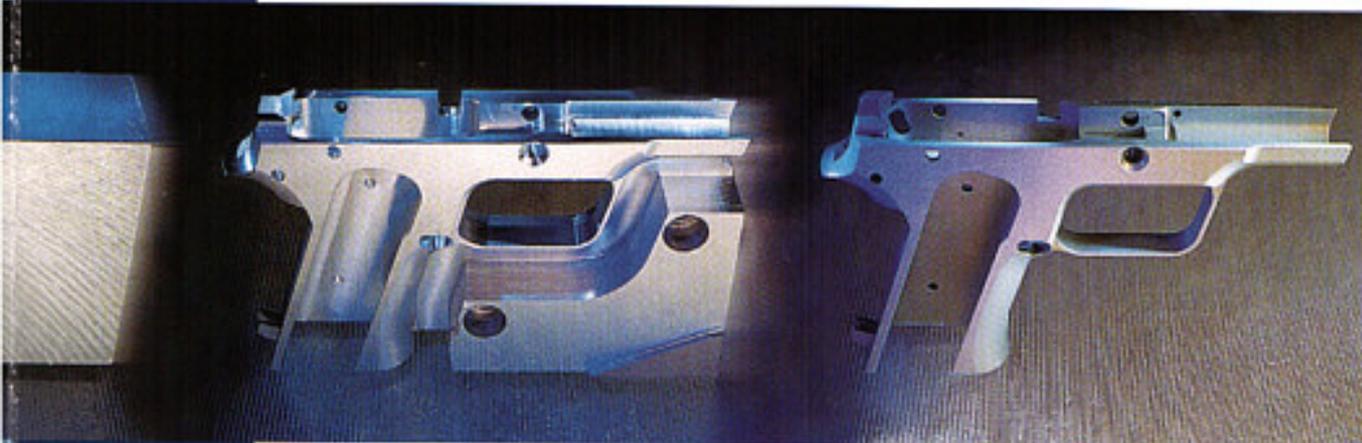

The frame, as well as
the slide and the major
small parts will be fully
machined from solid
plate and rods to
achieve high elasticity,
strength and stability.

High capacity maga-
zines available for law
enforcement

Designed for shooters
with small hands

Patented decocking
lever and automatic
firing pin lock
